

We first employed Shamus to demolish and rebuild our back deck. We were so impressed with his workmanship and had developed such a good working relationship with him that we have continued to use him for all of our other building projects.

From the outset Shamus was friendly and open to our ideas and suggestions. He also contributed many of his own thoughts and suggestions often bringing to the table innovative and practical ideas and solutions we had not ourselves considered. His advice was much appreciated and sought continually throughout each project. We would often come up with a change to detail as the project progressed and through several changes of plans Shamus remained patient and accommodating. Getting it exactly right was as important to him as it was to us.

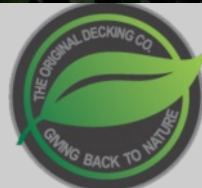

Shamus was prompt and thorough with getting his quotes to us and would talk us through the detail. His explanations were thorough and he encouraged discussion of any concerns straight away. He always made sure we understood and were happy with his proposal.

Shamus proved that he was very capable of managing the entire building project himself and coordinated with others well. He made sure that every part of the project was completed to the high standard he has set for himself.

Shamus is very friendly and easy to work with. He is patient, thorough and when you see him at work you appreciate how highly skilled he is. His most admirable quality though is his very high personal standard of work, his attention to detail and his pure quality workmanship. Suffice it to say, we are 100% happy with each project he has completed for us.

Linda and Matt Proctor

ORIGINAL
DECKING

Whether you are building new, or renovating an existing dwelling, we can offer you custom designs and our complimentary upgrade to the wider decking boards throughout 2011! (while stocks last). All our decks are screwed for added quality and our unique structures are 'made to love and built to last'.
